

# You don't have to wait for a vaccine to be safe

May 11, 2020 | [41 comments](#)

Many political and medical leaders in the world today believe that people will not be safe from the coronavirus until a vaccine is created. This is not true! There is a spiritual way to protect oneself from the virus that does not require waiting until a vaccine is produced. Christian Science explains how to do it.

Mary Baker Eddy, the Discoverer of Christian Science, wrote, **“At a time of contagious disease, Christian Scientists endeavor to rise in consciousness to the true sense of the omnipotence of Life, Truth, and Love, and this great fact in Christian Science realized will stop a contagion”** (*Miscellany*, p. 116).

We live in a realm of thought. As fears and beliefs about the coronavirus are countered and neutralized with an understanding of the “omnipotence of Life, Truth, and Love,” the virus is rendered harmless.

This is not a casual demonstration to be taken lightly. To be successful, our prayers need to be earnest and sincere, genuinely knowing and seeing the omnipresence of God’s good wherever we go and in whatever we do. But this it totally doable!

We do not have to live in fear of the coronavirus. We can demonstrate immunity to contagion. Know the omnipotence of God and prove your safety now.
