

# Immunity to the coronavirus

The medical community believes that a vaccine is necessary for protection from the coronavirus. There is an effective remedy already at hand that protects one from exposure to the virus. Spiritual consciousness. A consciousness of the omnipotence of God creates immunity to viruses and protects one from catching a disease.

Mary Baker Eddy explains how to create this immunity in these words:

**“Beloved Christian Scientists, keep your minds so filled with Truth and Love, that sin, disease, and death cannot enter them. It is plain that nothing can be added to the mind already full. There is no door through which evil can enter, and no space for evil to fill in a mind filled with goodness. Good thoughts are an impervious armor; clad therewith you are completely shielded from the attacks of error of every sort. And not only yourselves are safe, but all whom your thoughts rest upon are thereby benefited”** (*Miscellany, p. 210*).

Spiritual consciousness keeps disease out of thought and out of experience. It's your ultimate immunity to the coronavirus.
