

PEULOT @ HOME – SUMMER 2020

<b>Category:</b>	Chinuich		
<b>Title:</b>	Deserted Island	<b>Recommended Ages:</b>	All
<b>Materials:</b>	Imagination		
<b>Activity:</b>	<p>You and whoever you are with in your house land on a stranded Island. It starts just you guys but after a couple of weeks go by more and more people end up on the island until the island's population hits 100 people. At this point you realize that this island community is going to need structure, resources and teamwork in order to survive. Your job is to create the big three rules of the island, Which jobs are most important on to help preserve the island and decide one thing you can bring from the outside world onto the island. The idea of this discussion is to see how we as people will be affected by the change of being isolated from society and how we would react to trying to coming up with our own society. When G-d created the world he had to think of the same ideas as well and we are trying to understand a little bit of what was done in the process of creating order and civilization.</p>
