

The Easter message for today

April 10, 2020 | [25 comments](#)

Easter couldn't arrive at a better time! As fears encircle the globe about the coronavirus, Easter reminds us that the pandemic will be overcome. Health and peace will have the final say.

As Jesus Christ proved in his resurrection from the grave, evil does not have the last word. Disease and death can be conquered and replaced with health and life.

Jesus spent his ministry showing humanity the ability of God to overcome evil, of health to conquer disease, of right thinking to displace wrong thinking. He proved that any bad situation can be turned into a better situation.

The same Christ power that worked through Jesus is with us today. Jesus said, **“When I am raised to life again, you will know that I am in my Father, and you are in me, and I am in you”** ([John 14:20, NLT](#)).

Christ is with us! Christ is with everyone.

Let us celebrate the presence of Christ to protect us from disease, to lift our friends and neighbors out of their sickbeds and to restore peace on earth.

Christ is up to the task!

May your Easter celebration be filled with healing inspiration that makes the earth a brighter place for all.
