# No need for a second wave of the coronavirus

June 11, 2020 | 18 comments

Many health authorities around the world are predicting a second wave of infections from the coronavirus later this year. They cite their models and past experiences with other pandemics as evidence to back up their predictions.

The good news is that their predictions can be reversed and avoided! We can do something to prevent a second wave from happening. We can know the spiritual truth that stops infections.

Infections are not inevitable. More than about a virus, they are about the spread of fear and false belief that translate into physical suffering when adopted, either consciously or unconsciously.

We can resist and defeat infections by knowing God's government and control over health.

We are not helpless mortals that have to accept whatever materially comes our way. We are immortals, endowed with spiritual power and ability to stay healthy and well.

When we know who we are, as God's spiritual creation, an understanding of Truth protects us from believing in a counter error that would translate into physical suffering. A spiritual understanding of Truth prevents infection.

So, let's not accept dire predictions made by health authorities as inevitable truth. Let's love the world with spiritual truth and prayerfully see that every neighbor is shielded in Love, protected in Truth, and loved by Life so completely and wholly that no infection can ever enter their being or threaten their health.

The Bible says, **"What do ye imagine against the Lord? he will make an utter end: affliction shall not rise up the second time"** (*Nahum 1:9, KJV*). Truth makes an utter end to error such that error cannot repeat itself. It can only stay gone.

We live in God's universe, where Love is the atmosphere we live, move, and breathe in. There is no room for affliction of any kind. Just omnipresent and ever-present harmony and peace.
