Small Church Music

Organ & Piano Recordings.

The SmallChurchMusic site was commenced in 2006 grew out of the requests from those struggling to provide suitable music for their services and meetings.

Rev. Clyde McLennan was ordained in mid 1960's and was a pastor in many small Australian country areas, and therefore was acutely aware of this music problem. Having also been trained as a Pipe Organist, recordings on site (which are a subset of the smallchurchmusic.com site) are all actually played by Clyde, and also include piano and piano with organ versions.

All recordings are in MP3 format. Churches all around the world use the recordings, with downloads averaging over 60,000 per month.

The recordings normally have an introduction, several verses and a slowdown on the last verse. Users are encouraged to use software: Audacity (<http://www.audacityteam.org>) or Song Surgeon (<http://songsurgeon.com>) (see <http://scm-audacity.weebly.com> for more information) to adjust the MP3 number of verses, tempo and pitch to suit their local needs.
